Using Windows?

- Launch Adobe Reader (generally located in "programs") from the Start menu.
- Select "Edit" on the top menu.
- Select "Preferences" at the bottom of the list.
- Select "Internet" and look at the options. Place a checkmark next to "Display PDF in browser".

Using a Mac (Apple) Computer?

- Launch Adobe Reader from Finder.
- Open preferences from the Adobe Reader menu.
- Go to the "Internet" section, and look at the options. Place a checkmark next to "Display PDF in browser using:" and select Adobe Reader from the list.

If you try again and the form still does not open in your browser, or you continue to receive error messages, please return to the browser information. If you are having trouble accessing forms with one browser you can always try using another browser.
